OPTIONAL

OPTIONAL

## **Alde** HEATER

The Alde central heating system is a heat transfer fluid system, based on similar principles that characterise domestic heating systems.

It works through a gas boiler that heats the liquid contained in the system. Once heated, a pump circulates the liquid in a circuit of interconnected radiators.

The heated air spreads evenly throughout the interior of the motorhome. The system heats the air that circulates inside through slits placed on the wall units; once cooled it goes down and passing through the furniture raised from the ground can heat up again and return hot in circulation.

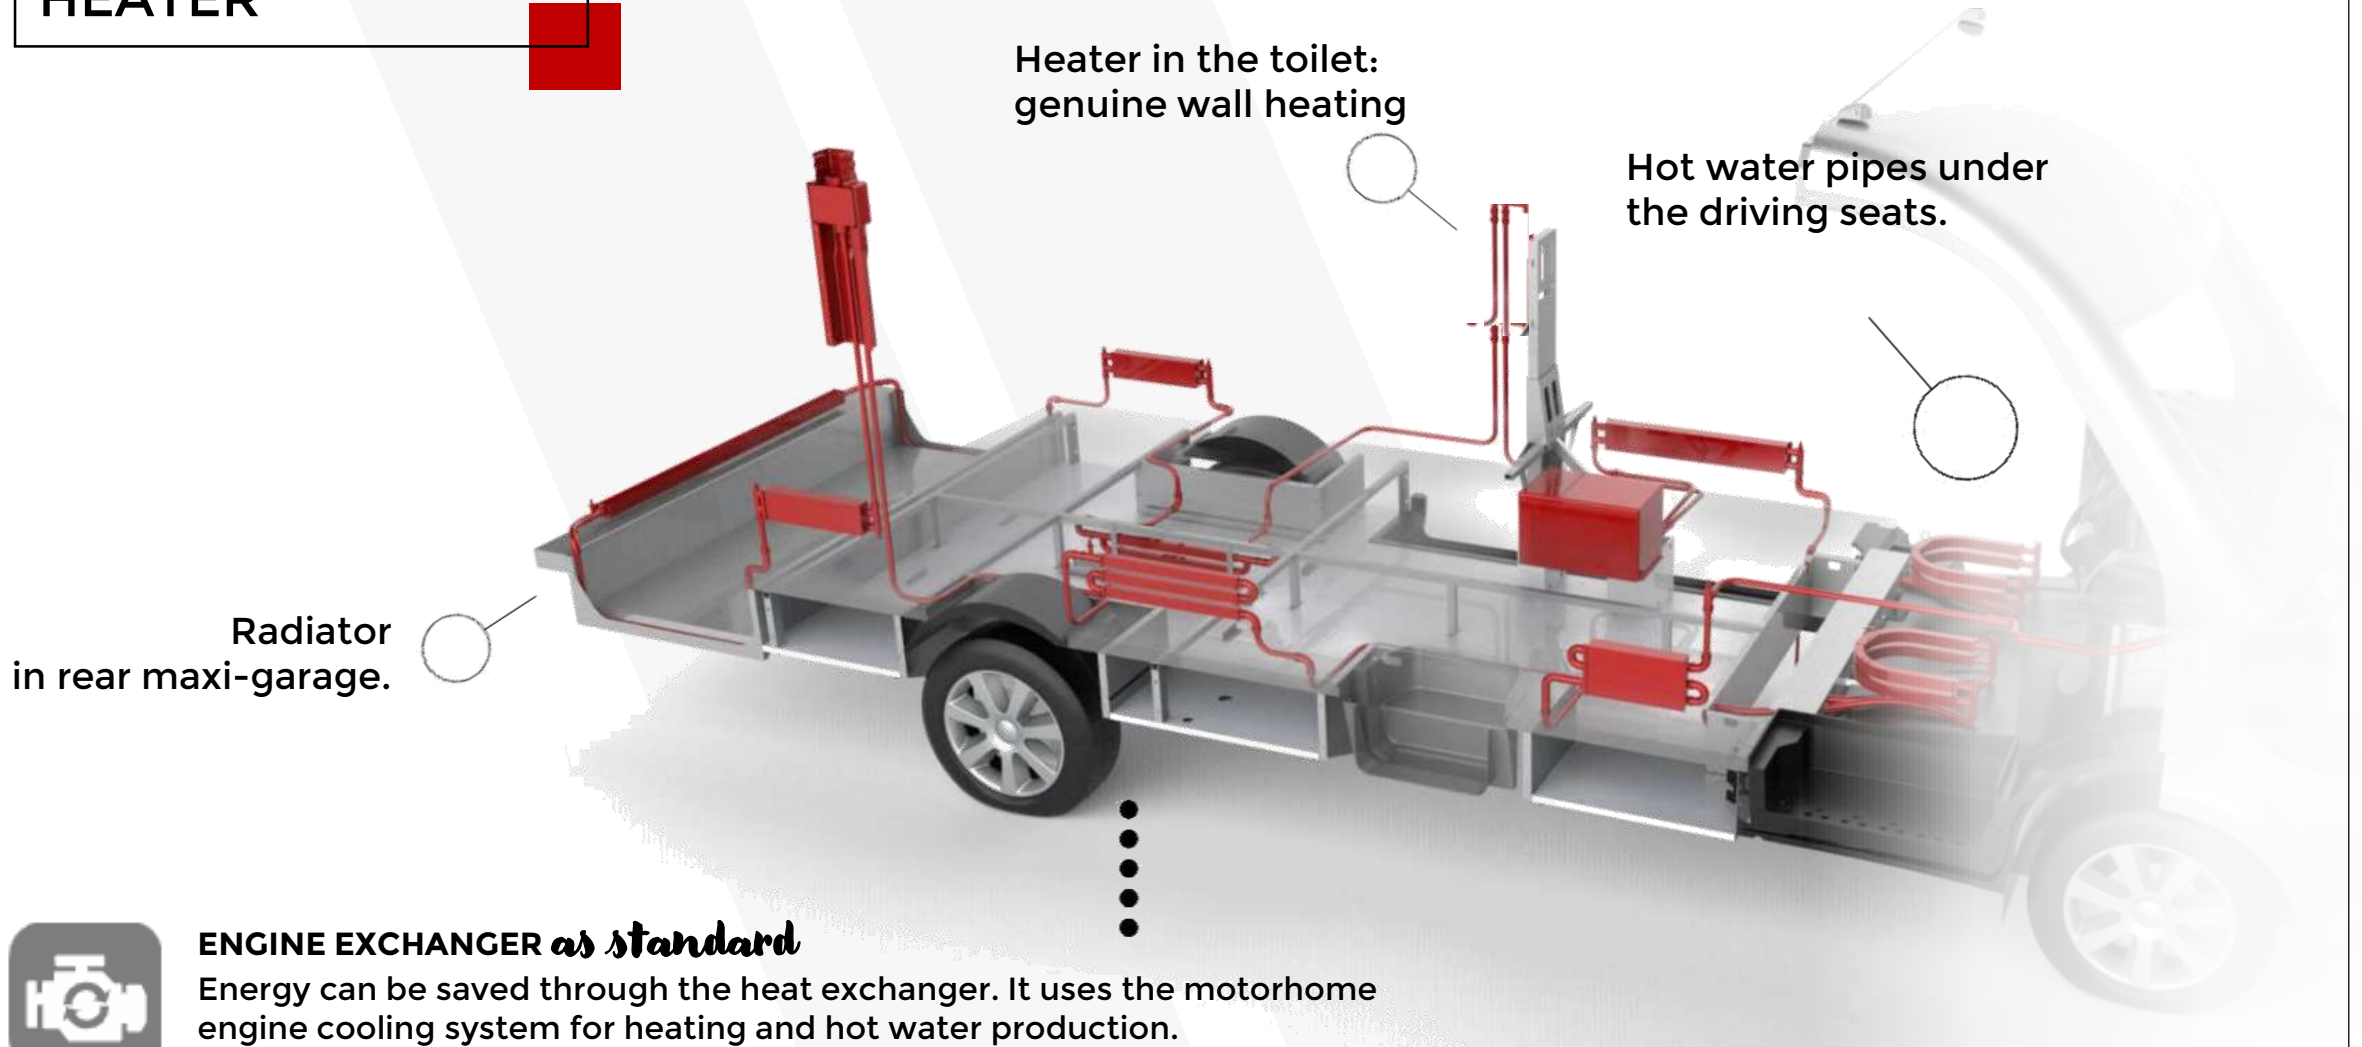

### *The benefits:*

- +** Healthy atmosphere.  
Atmosphere free from suspended dust and feeling of dryness.
- +** Even and longer-lasting warmth.
- +** Quiet operation.  
No ventilation.
- +** Continuous production of hot water.

# Alde<sup>®</sup> HEATER

Radiator  
in rear maxi-garage.

Heater in the toilet:  
genuine wall heating

Hot water pipes under  
the driving seats.

## **ENGINE EXCHANGER** *as standard*

Energy can be saved through the heat exchanger. It uses the motorhome engine cooling system for heating and hot water production.

OPTIONAL EQUIPMENT. AVAILABLE FOR K-YACHT TEKNO LINE AND KEA.

## LIVING THE MOTORHOME, OUTSIDE THE MOTORHOME!

Gas connection  
Water connection,  
Electrical socket,  
TV antenna socket.

### **COOKING OUTSIDE.** **Gas connection.**

The gas outlet allows you to connect a barbecue or an outdoor camping kitchen.

### **LEAVE THE DIRT OUTSIDE.** **Water connection.**

Positioned in the rear maxi-garage allows you to freshen up outdoors or rinse accessories before stowing them in the maxi-garage or motorhome.

### **OUTDOOR ENTERTAINMENT.** **TV antenna socket.**

To feel good, alone, with friends, outdoors, in the enclosure, for a holiday immersion.

### **PRACTICAL PURPOSE.** **220 V + 12 V electrical socket.**

Always available for any DIY activity outside the motorhome as well.

# AL-KO CHASSIS

# CHASSIS **AL-KO**: how it is made

Hot galvanized chassis,  
**resistant against corrosion.**  
Axle with extended  
track width

With independent  
wheel suspension.

One-piece open "C"  
structure to guarantee  
**rigidity and resistance.**

Lightweight structures with holes  
in the side members.  
**Lighter. Easier water drainage.**  
**Equal strength.**

**Perfect matching.**  
Cup-type coupling  
with embossing.

Lowered chassis.  
for **higher**  
**volumes.**

Front height  
2.91

Rear height  
2,98 m

*16" rim wheels*

*Design, Distinction, Technique*

## DOUBLE FLOORING.

THE PRIVILEGE OF HIGH PERFORMANCE IN TERMS OF SPACE, VOLUMES, INSULATION.

The AL-KO lowered chassis is ideal for creating a double flooring for lots of stowage space and for the use of rear garages and following loading.

But not only that!

It increases the space inside with advantages also in terms of living space.

### **Through maxi-garage**

which exploits the space created between the two floors. Internal height: 19 cm.

### **Additional stowage space, easily accessible**

The storage space is accessible from inside the motorhome, via specific hinged maxi hatches, and from outside via opening hatches on both sides of the motorhome.

### **An extra-large maxi-garage .... always!**

The lowering of the chassis ensures a large maxi-garage on the outside and a bed on the inside that is easy to access, without the need for variable volume mechanisms.

### **Frost-protected tanks.**

The tanks are located between the two floors: in such a position they are protected from frost and better insulated from the outside.

# CHASSIS **AL-KO**: stowage volume

●●●●● Double flooring with  
19 cm clearance

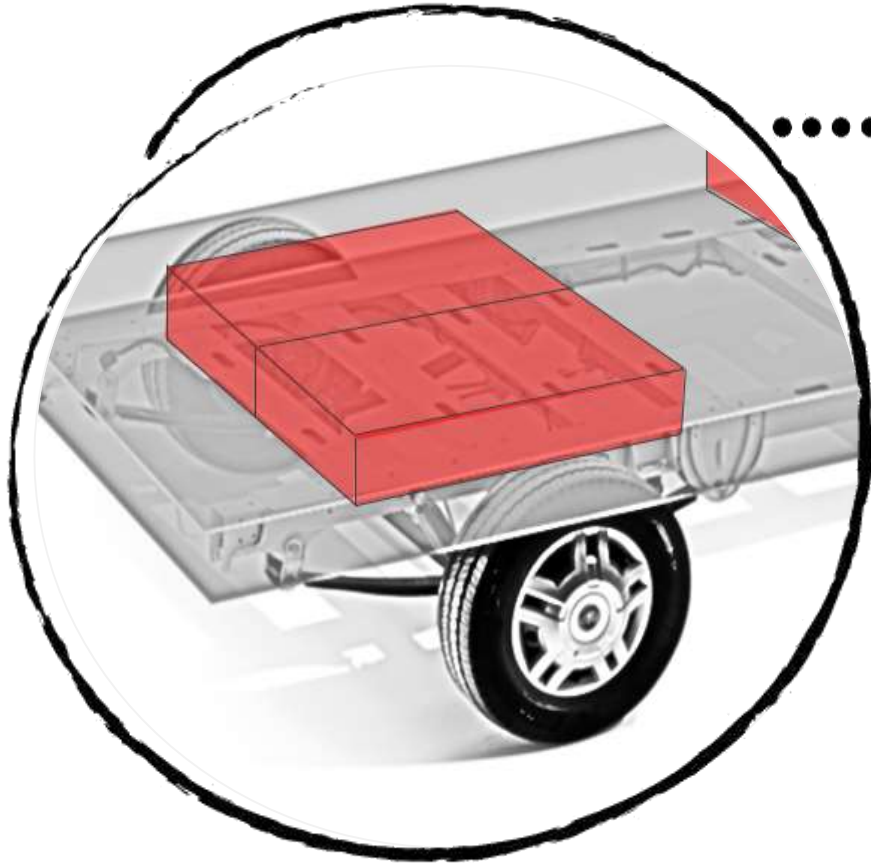

Access to the double floor  
for storage on both sides of  
the vehicle thanks to large  
and practical doors

Maxi central hatch with hinged door. ●●●●●  
Space for shoes, bottles, boxes, tools.  
Capacity 93 litres (*Model 64*)  
84 litres (*Models 90 and 86*).

●●●●● Fresh water tank and grey water tank positioned in the double flooring: they are protected and insulated from the upper and lower floor.

**GREATER CAPACITY,  
GREATER AUTONOMY.**

**145 LITRES.**

Fresh water tank.

**135 LITRES.**

Waste water tank.

●  
●  
●  
●  
●  
●  
●  
●  
●  
●  
Access via hatches to the drain cocks and fresh water tank.

●●●●● **An extra-large maxi-garage .... always!**  
The lowered chassis allows for a maxi-sized garage.  
The rear room remains extremely liveable and the  
bed, of whatever type, remains easily accessible.

**Accessible bed, large garage:**  
Without variable volume systems,  
With clear separation between room and garage,  
No bad smells from the garage,  
A fully insulated and protected room!

○ internal height: 112 cm (Models 64 and 86)  
and 106 cm (Model 90).

## LITHIUM READY - READY FOR LITHIUM BATTERIES

*with battery charger included.*

### MORE CHOICE, MORE AUTONOMY.

In a motorhome it is important to have some spare electricity available during stops. In summer and more often in winter having good batteries will allow you to have a **good electric autonomy** to enjoy in perfect relax all the days of holidays also in free parking areas.

*System ready for integration with Teleco batteries.*

### + MORE ENERGY AND AUTONOMY ON BOARD.

Up to 90% of their capacity can be used, compared to 30% for AGM batteries. This means that with one lithium battery you can have more energy than with 2 AGM batteries.

### + GREATER DURABILITY.

They have a very low self-discharge current, i.e. the battery will still have a high charge when used after a medium to short-term storage period.

Lithium batteries last much longer than AGM batteries supporting 2000 to 5000 charge and discharge cycles. So they can last as long as the life of the motorhome.... always in perfect working order.

Lithium batteries are equipped with an overload and short circuit protection circuit, so they are safe for extended and efficient motorhome use.

### + LESS WEIGHT.

The weight of lithium batteries is about 2 times less than the weight of AGM batteries. Considering that a single lithium battery can replace two AGM batteries and still provide more electricity, the overall weight saving is remarkable.

## COMPRESSOR REFRIGERATOR READY

**MORE CHOICE,  
MORE AUTONOMY.**

**COMPRESSOR REFRIGERATOR OFFER,  
IMPROVED PERFORMANCE  
THANKS TO LITHIUM BATTERIES!**

Combined with the lithium battery, it is possible to order the compressor refrigerator.

*As a replacement.  
The outer grids are still there.  
System ready for integration  
with Teleco batteries.*

### **+ COOLER AND SOONER.**

- It reaches the temperature in a short time obtaining the desired coolness to preserve at best drinks and food of various kinds, in a much shorter time compared to the three-way fridge.

### **+ IS NOT AFFECTED BY HEAT.**

- It does not suffer from hot periods and is less affected by temperatures above average.

### **+ CHOOSE HOW TO USE IT.**

- It has separate functions to activate the refrigerator and freezer, turning the latter into a "cool" compartment if not activated.

### **+ SMART ENERGY CONSUMPTION.**

- Like on a domestic refrigerator, the compressor runs for a few minutes every 15-20 minutes. This results into a considerable energy saving: the system works only 10-20 minutes every hour and not 24 hours a day!

**EXTERIOR SPECIFICATIONS:**  
*THE BEST EQUIPMENT INCLUDED.*

## KITCHEN.

### Ergonomics and functionality

- + VALUE AND FUNCTIONALITY: BEAUTIFUL, EASY TO CLEAN AND DURABLE.**  
Acrylic stone top moulded in a continuous surface, in a one-piece mould with integrated sink. Acrylic stone is a durable material that is easy to maintain.
- + MODULAR AND EXTENSIBLE SPACES.**  
Expandable surface. The "bridge" chopping board expands and modulates the surface as needed.
- + EXTRA SURFACE AREA. WIDE TOP ALSO WITH BURNERS IN USE. COMPLETE AND FULL OF ACCESSORIES.**  
Multifunctional chopping board.  
Practical basins and integrated storage compartments.
- + PLENTY OF SPACE.**  
1 sliding large drawer.  
1 basket.  
2 drawers.  
1 fitted door.

*Chef in less than one metre.*

ACRYLIC STONE TOP  
WITH MULTIFUNCTIONAL  
AND MULTISPACE  
SINK COVER.

STOWAGE.  
1 SLIDING LARGE DRAWER.  
1 LOWER BASKET  
UNDER THE PENINSULA.  
2 DRAWERS.  
1 FITTED DOOR.

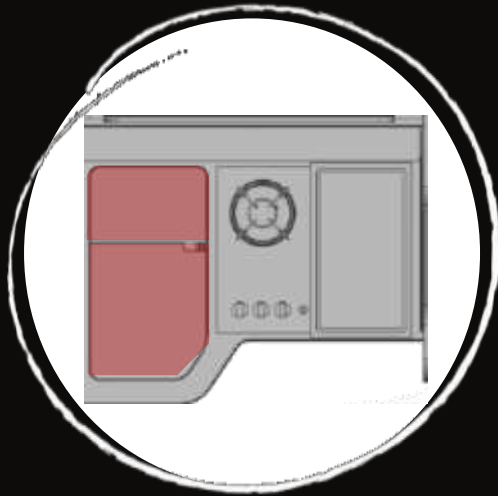

MODULAR AND  
EXTENSIBLE  
SPACES.

INTEGRATED STORAGE  
TRAYS IN TWO  
DIFFERENT SIZES.  
WITH COVER.

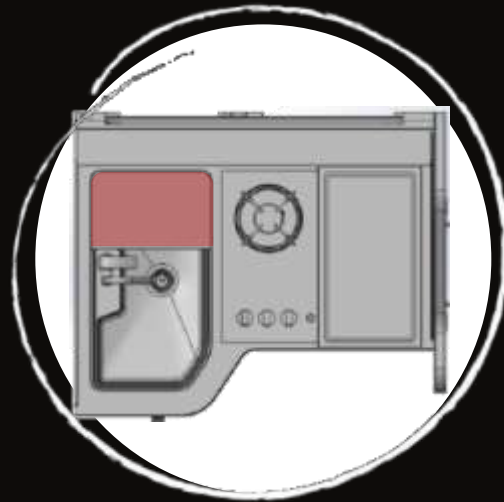

**SINK COVER  
IN TWO PARTS.**

**The sink cover that multiplies your space!**

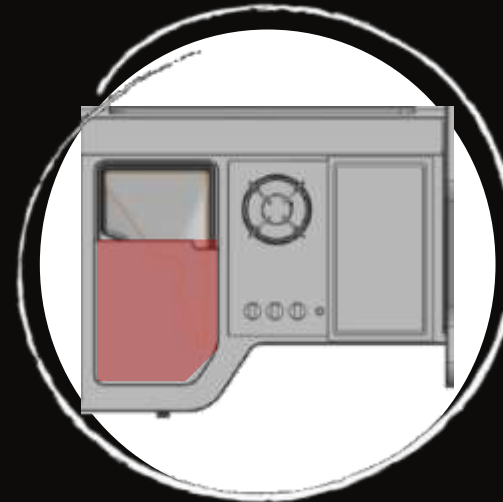

**ALL SURFACE.**

The sink cover protects the sink and offers a truly remarkable workspace.

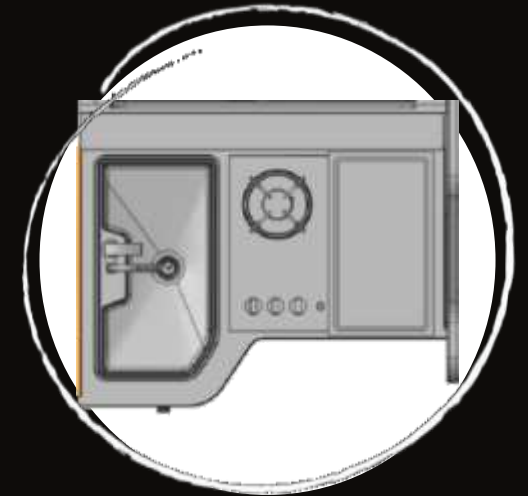

**LARGE BASIN.**

A "wide" sink to use, a "supporting" countertop

**SMALL BASIN.**

A "supporting" sink, a "wide" countertop.

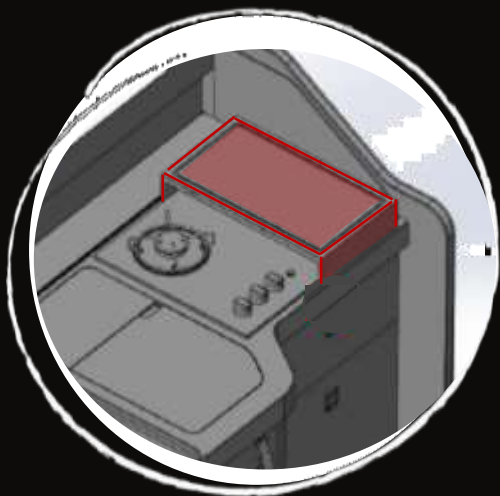

**ALL SINK!**

An extra capacity sink for kitchen activities.

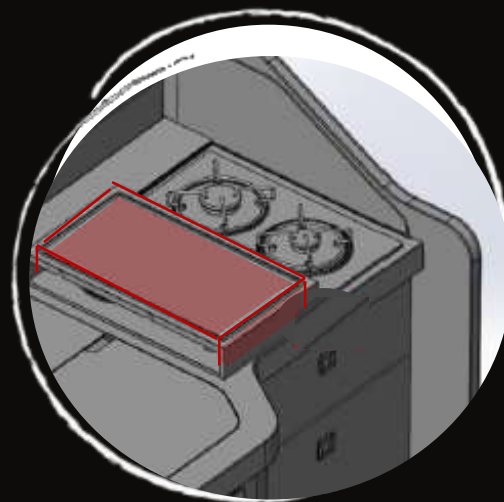

**"BRIDGE"  
CHOPPING BOARD.**

**The chopping board that multiplies the surface area!**

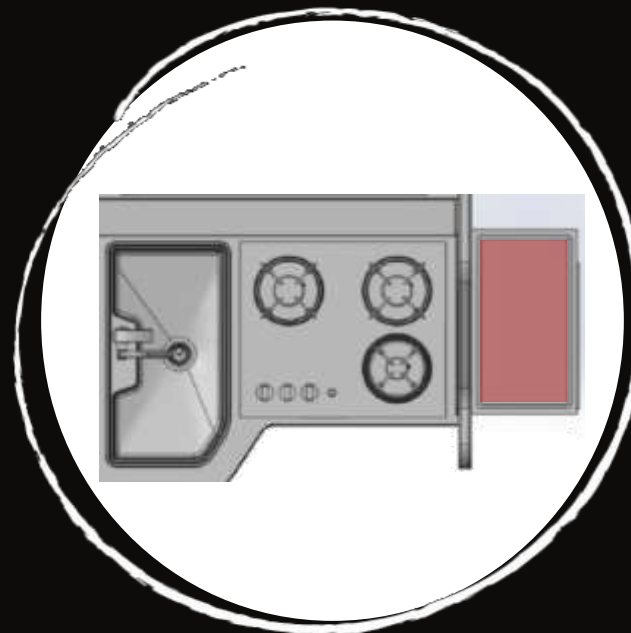

**FOR SHORT  
BREAKS ONBOARD  
THE MOTORHOME.**

Cook with just one burner and use the side countertop.

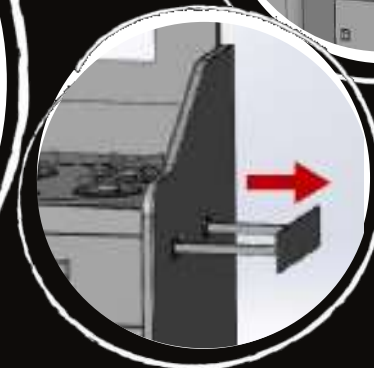

**TWO CONVENIENT  
BURNERS.**

For the daily preparation of your meals.

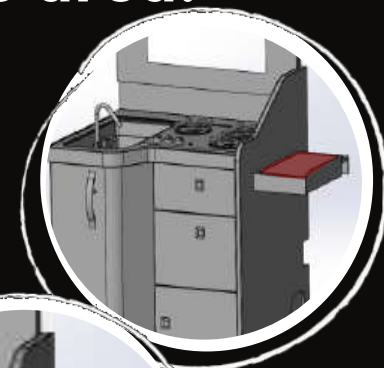

**FOR THE CHEF IN THE  
MOTORHOME...**

Three burners are on hand. And an additional countertop.

**...WITH LOTS OF  
EXTRA SURFACE.**

Quick extension of the top thanks to the handy retractable bracket.

## TOILET.

A SPA in your motorhome.

- + MOVE FREELY.**  
Increased shower dimensions.  
Rain shower head for a unique experience (with the option of a practical handheld shower sprayer).
- + LIVEABLE SPACE.**  
Wooden shower platform.  
It increases the liveable space to move freely on a linear surface.  
The space can also be used after showering (water remains under the platform).
- + APPEAL AND SUBSTANCE.**  
Toilet with wooden interior, in teak wood colour laminate and matt, antibacterial laminate top.  
Reinforced ABS shower base.  
Shower with 2 drain holes.
- + IN A SMALL SPACE, YOU HAVE EVERYTHING. OPTIMIZED SPACE.**  
Large storage caddy.  
Wall mirror and on wall unit.  
Large washbasin.
- + VARIABLE VOLUMES FOR COMPACT VEHICLES.**  
Modular bathroom for model 64.

**GRAVITY SHOWER HEAD.**

**INCREASED DIMENSIONS.**

**Model 64**  
Height 1.960 mm  
Dimensions 800x710 mm

**Model 86**  
Height 1.940 mm  
Dimensions 720x700 mm

**Model 90**  
Height 1.940 mm  
Dimensions 720x650 mm

**POSSIBILITY OF A PRACTICAL SHOWER SPRAYER. LARGE STORAGE CADDY.**

**REINFORCED ABS SHOWER BASE. SHOWER WITH 2 DRAIN HOLES. WOODEN SHOWER PLATFORM.**

**SKYLIGHT 40x40 cm**

**STORAGE.**

**WALL MIRROR**

**LARGE WASHBASIN.**

## REINFORCED SHOWER BASE

**Abs thermoforming.  
Reinforced with polyurethane  
foam.**

**High-density foam for  
More rigidity and resistance**

**No strains.  
No cracks.  
No crimps.**
